

Newsletter for Grade 1B

Scintillating September

The only way to do great work is to love what you do. - Steve Jobs

From the Principal's desk.....

“Gratitude makes a sense of our past, brings peace for today, and creates a vision for tomorrow.”

- *Melody Beattie*

Dear Parents, Children and Well-wishers,

Greetings to all from Vyasa International School!!

We have already cruised into the academic year 2023-24 in June. We are in the third month, August, and this can be a good opportunity to reflect on the year gone by and count our blessings.

Being thankful..... living life with gratitude..... is contagious. When you take time to thank those in your life, thank those who make a difference, you set an example for the others to follow. A simple” thank you” lets others know your appreciation, and it also encourages a culture of gratitude.

As we reflect on the many blessings in our lives, as we give thanks for the loved ones, friends and colleagues in our lives that give us strength and support, we are grateful for the peace and joy we share together. The seed for tomorrow's vision is sown in our success and gratitude today. Continue to cultivate an attitude of gratitude..... it is essential to a great yield for tomorrow.

Thus, let us make a conscious effort as parents and as teachers to help our children cultivate the habit of expressing gratitude. Let us go beyond just being thankful and encourage children to feel the necessity of expressing gratitude to the ones who have played a major role in molding their lives to become a better person.

Thank you

Vidhya U R

Principal

Vyasa International School

Dear Parents,

As we present the fourth edition of our Newsletter, we reflect on the exciting events and achievements of the past month. Our classrooms and corridors were abuzz with the sound of enthusiastic learning, creative expression, and meaningful connections.

Our students shone brightly in various areas showcasing their talents in the Pre-Independence Day competitions and Art competition.

As we step into the next month the excitement continues to build as we have a variety of engaging activities and enriching experiences lined up for our students.

SNAPSHOT

Literary Day: Bookmark competition

Electricity consumption is a crucial part of our daily lives, but it's essential to be mindful of its impact on the environment. Most of our electricity is generated from non-renewable sources like coal and natural gas, contributing to air pollution and climate change. To make a difference we can take simple yet impactful steps. Turning off lights, electronics, and appliances when not in use, using energy efficient LED bulbs and unplugging chargers help reduce energy waste. Choosing renewable energy sources like solar and wind power, as well as minimizing phantom energy by unplugging devices are effective ways to decrease carbon foot print. By raising awareness and adopting these practices, we can collectively contribute to a more sustainable future and preserve our planet's precious resources.

Energy Audit:

Have a 'hunt' around the house with your family and find the devices that use the most electricity. Brainstorm the ways to minimize the usage. Create a poster with the ideas and submit it your class teacher to win the 'Vyasa Eco-warrior Badge'.

We would like to wish all the students celebrating their birthday this month an awesome one.

A sneak peek into the month gone by.....

Stars of the Week

Alekhya Shivakumar

Om Krishna Rout

Muhammad Nizamuddin

Aryan Sinha

Class Monitors

Art Competition

Saiswara S & Ayansh Sharma

English Activities

Show and Tell- Our Neighbourhood
